

BUSINESS LEADERSHIP & SPIRITUALITY

OVERVIEW

Tough times in business may be precisely the time to turn to spirituality, the deep values that anchor and guide us as we navigate the challenges of everyday life. Join with other business leaders to examine and strengthen trustworthy principles, to discover new paradigms of attitude, thought and action, and to find and offer support as we create new responses to a rapidly changing world.

Input from experienced professionals, small group sharing, and suggestions for spiritual practices and resources will guide the seminar. Themes for the sessions include:

- Spirituality in business: working from one's deepest meaning in promising and perilous times.
- Something new is happening: signs of hope on the horizon.
- Discernment: the art of making decisions grounded in our deepest values.
- The road less traveled: how to maintain integrity in a pluralistic world of competing values.
- New horizons: complexity, chaos, and polarity management.
- Servant leadership: from domination to service and collaboration.
- Practice what you preach: closing the gap between what we say and what we do.
- Stewardship for the future: Will the world be better for our having been here?
