Master’s Credential Cohort Program 2014-15
Supplementary Information for MCC
Multiple Subject Candidates

The student teaching component of the Masters Credential Cohort (MCC) pathway consists of one semester of part-time student teaching and one semester of full time student teaching. This arrangement is different from the traditional pathway described in the USD student teaching handbook. MCC student teachers, supervisors, and master teachers are expected to comply with the same assessment requirements that are outlined in the student teaching handbook, however the timing and structure of those requirements may vary.

MCC Student Teaching Structure
First Semester -- During the first semester, MCC candidates will spend half time in an elementary classroom (a minimum of 20 hours/week). Each candidate’s schedule will be determined at the school site. During that time the candidate will be expected to gradually take responsibility for teaching the class in literacy and mathematics; he/she must plan with the master teacher and supervisor and subsequently teach a minimum of four weeks in literacy and mathematics, independently. Prior to beginning student teaching all candidates must have taken and passed both the CBEST and the CSET and been issued a certificate of clearance by the CTC.

Sample First Semester Student Teaching Outline

| October or March | Co-teach class  
Start Case Study | Co-teach class |
| November or April | Teach Class  
Continue Case Study | Teach Class  
Negotiate the content for PACT with Master teacher |
| December or May | Plan and Teach Class  
Complete Case Study | Plan and Teach Class  
Plan edTPA  
Film edTPA |
| January or June | | Write edTPA narrative |

Second Semester -- During the second semester, MCC elementary candidates will be required to spend a minimum of four hours each day at the school site and are encouraged to spend full days at the site wherever possible in order to integrate themselves into the life of the school. Supervisors, master teachers, and principals may require candidates to spend additional hours at the site based upon the needs of the classroom and school. Candidates will be expected to assume full-time teaching duties for full-day classroom duties at elementary for a minimum of four weeks. Prior to beginning the second
semester of student teaching all candidates must have successfully completed first semester and all credential coursework and passed the advancement to student teaching interview.

Requirements and Expectations

All MCC candidates are expected to comply with the following requirements. Failure to comply with these requirements could result in disciplinary action and may jeopardize the candidate’s graduate status and/or his/her ability to earn a teaching credential.

- **Attendance and observation** – Candidates will be expected to attend assigned classroom daily and actively participate in the events of the class and professional activities of the school (second semester). Candidates will be expected to closely observe the practices of the master teacher and may be required to maintain a reflection journal. Throughout the field placement, professionalism, dependability, and clear communication are essential.

- **Classroom instruction** – Candidates will be expected to participate in classroom instruction as directed by the master teacher. Instruction should include individual conferring, small group support, and whole class instruction.

- **Curriculum and assessment planning** – Candidates will be expected to teach the assigned curriculum. Candidates will be expected to assess students’ learning using assessments designed and implemented in collaboration with master teachers and/or university supervisors.

- **Formative and summative evaluations by master teacher and university supervisor** – Candidates will regularly be observed by both their master teacher and by their university supervisor. A minimum of two formal triad evaluation conferences (midterm and final) will take place each semester during which candidates receive feedback on their progress for continued growth. In addition, the candidate will receive formative feedback after each of the six supervisor visits and six master teacher observations each semester, and on-going formative feedback from
both. Candidates are expected to respond to this feedback and show evidence of learning and continued professional growth.

- **MCC Course related assignments** – Candidates will be concurrently enrolled in a student teaching seminar during the first semester of student teaching. Assignments in classes will support and complement students’ fieldwork experiences. Specific assignments that respond to candidates’ student teaching experiences will be assigned and monitored by instructors in the relevant courses. These include lesson and unit planning, the edTPA performance assessment, and action research design and data collection. See specific course sequence for both the 1-Year and 2-Year programs below.

EDUC 597 Historical Struggles for Educational Equity (3)

Placement Locations
Within the MCC program, student teaching will take place at carefully selected sites chosen for teaching excellence, faculty and administrative support for candidate learning, and diversity among the student body. Each MCC candidate will have one experience in a primary grade assignment (grades K-2), and another in an upper grade classroom assignment (grades 3-6).

Per CTC regulations, the teaching experiences at these two sites must include at least one teaching assignment where beginning reading is taught. In addition, in response to CTC regulations, at least one semester will be spent in an urban and/or underperforming
school; and at least one semester will be spent in a classroom that includes English Learners.

Placement decisions will be made at the discretion of the Field Experiences Office. Although candidates are invited to share their preferences, decisions will be made in accordance with the goals of the program, the requirements of the state, and the professional judgment of the USD faculty and staff as to the placement site that best fits the experience and needs of the MCC candidate.

**Supervision Structure**

Throughout the student teaching experience, the teacher candidate, the university supervisor, and the master teacher are expected to work together to support the professional growth of the teacher candidate. Specific responsibilities are as follows:

- **University supervisor** – The university supervisor is responsible for supporting and monitoring MCC candidates throughout the tenure of their student teaching experience. The supervisor provides an important link between the university and the placement sites. The multiple subject supervisor will serve as a “generalist” knowledgeable in all subject areas, which will support the candidate’s development of subject-specific pedagogical content knowledge. The university supervisor is responsible for the following:
  - Meeting with the candidate and master teacher at the beginning of each semester to establish an appropriate structure to support the candidate’s integration into the classroom.
  - Formally observing and providing feedback to each MCC candidate six times during each semester. Informal communication with the candidate throughout the semester.
  - Facilitating two formal triad evaluation meetings each semester with each candidate and master teacher, and assigning final grade.
  - Maintaining regular contact with the field experiences director and master teacher and alerting them to any concerns regarding the MCC candidate.
  - Participating in field experience support meetings with USD faculty, the field experiences director, and the MCC program coordinator as needed.

- **Master teacher** – The master teacher is an exemplary classroom teacher with content expertise, strong pedagogical practices, and a demonstrated ability to support adult learning. The master teacher will host an MCC candidate in their classroom for one semester. Master teachers will be responsible for the following:
  - Establishing an appropriate structure to support candidates’ integration into the classroom.
  - Providing guidance in supporting candidates’ planning, instruction, and assessment of students.
  - Providing regular informal feedback to student teachers.
● Formally observing and providing feedback to each MCC candidate six times during the semester.

● Complete the midterm and final evaluation forms.

● Participating in two formal triad evaluation meetings with the candidate and university supervisor during the semester.

● Maintaining regular contact with the university supervisor and alerting he/she to any concerns regarding the MCC candidate.

• **MCC teacher candidate** -- The teacher candidate is expected to play an active role in facilitating his or her own learning. In addition to the requirements and expectations outlined above, the teacher candidate is responsible for the following:
  
  ● Meeting regularly with the master teacher at a time that is convenient to him/her to discuss classroom observations, curriculum expectations, instructional planning, assessment and student learning.
  
  ● Participating in debriefing sessions with the university supervisor and/or master teacher after formal observations and taking steps to respond to the feedback provided in those sessions.
  
  ● Participating in two formal triad evaluation meetings with the university supervisor and master teacher each semester.

  ● Actively participating in all aspects of classroom teaching including individual, small group or whole class instruction, instructional planning, and assessment.

  ● Maintaining a reflection journal if assigned that includes observations, questions, connections, concerns, and/or evolving views on teaching and learning.

  ● Actively participating in the life of the school through attendance at faculty meetings, professional learning community sessions, extra-curricular activities, and student outreach events.

  ● Actively seeking out resources within and beyond the school. This may include asking for targeted support from the master teacher, visiting other teachers’ classrooms, crafting curriculum materials using internet and library resources, and attending professional conferences and workshops.

  ● Asking questions and sharing observations and concerns with the master teacher, university supervisor, peers, and USD faculty.

  ● Alerting appropriate support providers if personal or professional concerns arise that may interfere with student teaching responsibilities and your professional growth.
PLEASE NOTE: If concerns arise with regard to a candidate’s performance during student teaching, the director of field experiences should be contacted immediately at the phone number below. University supervisors and/or master teachers should document concerns using the “Notification of Need to Improve” and/or “Identification, Assistance, or Dismissal of Candidate” forms found in the USD Student Teaching Handbook.

Assessment and Evaluation

The following assessment measures are in place to support candidate learning and ensure appropriate preparation to meet the California Teaching Credential requirements. Candidates must meet or exceed the expectations set for each of these requirements in order to begin, continue, and successfully complete his/her student teaching assignments. Please note that these assessments are in addition to course assignments, which also must be completed satisfactorily in order to earn a California Teacher Credential.

Evaluation Timeline:
Before first semester student teaching:
- Verification of successful completion of CSET and CBEST, fingerprint screening, and university transcripts submitted to USD’s credential analyst – Andrea Cash andreacash@sandiego.edu
- Successful completion of EDUC 581, EDUC 582, and EDU 558XB with grades of B- or above in all courses
- Successful completion of practicum and satisfactory evaluation from field placement supervisor.
- Placement interview (if required by school site)

During first semester student teaching:
- Six formal observations by the university supervisor and six formal observations by the master teacher.
- Two formal triad evaluation conferences (mid-term and final).
- Successful completion of all assignments in the MCC student teaching seminar.

Before second semester student teaching:
- Successful completion of credential coursework with grades of B- or above.
- Successful completion of the Advancement to Student Teaching Interview.

During second semester student teaching:
- Six formal observations by the university supervisor and six formal observations by the master teacher.
- Two formal triad evaluation conferences.
- Successful completion of all assignments in the MCC student teaching seminar.

End of second semester student teaching / Credential completion:
- Successful completion of edTPA. Failure to successfully complete the edTPA at the first submission may result in the candidate becoming ineligible to complete the master’s portion of the MCC program due to time constraints.

Evaluation Records:
A complete evaluation record will be maintained in the Field Experience office. It is strongly recommended that candidates maintain their own records—observation records, and evaluation records from their student teaching.
The following table provides a list of assessments, evaluators, locations, and submission dates. *Candidates are expected to work with their university supervisors, master teachers, and the Field Experience staff to ensure that all assessments are submitted in a complete and timely manner.*

**Evaluation Materials:**
Candidates should familiarize themselves with the following assessment materials:

- **Teacher Performance Expectations**—TPEs are set by the state of California and guide the MCC coursework assignments and student teaching evaluations. See the USD Student Teaching Handbook.
- **Advancement Interview Questions** – The advancement interview questions and assessment rubric are based on the edTPA expectations (see below). Individual candidate advancement interviews will take place with a panel of teachers, supervisors, faculty and administrators at the end of the fall semester.
- **Student Teaching Observations** – During formal observations, master teachers and university supervisors should take notes that include their observations, questions, comments, and suggestions. A copy of these notes should be provided to the candidate immediately after the observation; a second copy of the notes should be maintained electronically in the candidate’s file. Classroom observations should focus on elements of instruction that are enumerated in the TPEs. Sample observation forms are found in the USD Student Teaching Handbook.
- **Student Teaching Evaluation** – The Student Teaching Evaluation Form is used during the midterm and final student teaching evaluation conferences. A copy of the completed evaluation form will be provided to the candidate immediately after the evaluation conference; a second copy will be submitted electronically in the candidate’s file (Evaluation is in the USD Student Teaching Handbook).
- **edTPA** – Within the MCC program, the edTPA is used as a summative assessment of student teaching performance. Successful completion of the edTPA is required in order to obtain a California Multiple Subjects Teaching Credential through USD. The edTPA guidelines also inform the advancement interview that is required prior to beginning the second semester of student teaching in the MCC program. The edTPA teaching event is content area specific. More information on the edTPA and the rubrics that are particular to each content area can be found at [http://edtpa.aacte.org](http://edtpa.aacte.org)
